Integration of SFDR sustainability-related disclosures for Luxembourg AIFMs and UCITS management companies to go live on March 10, 2021

The EU legislator's ambition to have UCITS management companies and AIFMs to integrate SFDR disclosures on their websites and in the issuance documentation of the funds they manage on sustainability risks and adverse sustainability impacts in their investment decision-making and in advisory processes under the Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR), is set to become reality as of next Wednesday, 10 March 2021.

While the deadline for fast-track filing of the amended issuance documentation integrating sustainability-related disclosures set by the Luxembourg Commission for the Supervision of the Financial Sector (CSSF) at 28 February 2021 has unfortunately expired, it is the last time for those UCITS management companies and AIFMs to urgently submit such documentation to the CSSF.
